EXPERIENCE

Teaching Experience

Associate Professor and Head of the department of Obstetrics and Gynaecology; This role involves administrative, academic and clinical duties. I am responsible for the Dean of the college, for organizing the academic work of the department by contributing, and assigning the other members of the teaching staff to complete the curriculum for Year5 and Year6 medical students. The academic year includes two semesters, with one examination at the end of each semester, including the final examination for year6. The academic activities include lectures, tutorials, seminars, skills' lab and clinical word rounds in the teaching hospitals. The Clinical duties of our unit include outpatients' clinics, operative theatre sessions and on call duties.

Other teaching experience includes teaching and supervising of training of junior colleagues, GP trainees, student nurses, and midwives. I have developed my clinical and teaching experience at the following teaching hospitals; Khartoum teaching hospital, St. James's university hospital, Dublin, the National maternity hospital, Portuincula university hospital, Galway, University hospital of Wales at Cardiff, London University hospital at North Middlesex and St. Mary's hospital in Manchester. I have gained wide experience in teaching of Foetal Monitoring during Labour and Labour ward Management. I have participated actively in the Clinical Audit during my training in the Irish and the UK hospitals.

Clinical Experience; Registrar, Specialist and Consultant in Obstetrics and Gynaecology

Recently a Consultant, Associate Professor and Head of department of Obstetrics and Gynaecology and Head of the clinical unit of Nile university at Alban gadid teaching hospital. I have gained wide experience in Obstetrics and Gynaecology and Sexual and reproductive health, during my clinical training. I have special interest in Delivery suite Management. I participate actively in the running of Outpatient clinics, operative theatre sessions and on call duties covering Labour ward and Gynaecology emergencies. Surgical skills include; emergency and elective Caesarean sections, Instrumental deliveries, and emergency procedures for the management of miscarriages and ectopic pregnancies. I have performed Diagnostic laparoscopies, hysteroscopies and laparoscopic tubal ligations. I perform trans-abdominal, trans-vaginal ultrasound scans and colposcopy. Other surgical skills include elective and emergency, postpartum hysterectomies. I have completed the Sexual and Reproductive Health Module in London, and gained wide experience in the management of sexually transmitted infections and disorders involving Genital skin, at the Sexual and Reproductive Health clinics in the UK. Other areas of special interest include Labour Ward management and teaching of Intrapartum Fetal Monitoring.

RELATED ACTIVITIES AND COURSES

I attend and participate actively in the educational and continuous professional development activities at Nile university and Albangadid teaching hospital, since February2017.
